

WHO WE ARE

Farm Ontario is made up of six exclusively Agricultural Realtors and two full time office staff that truly operate as a team.

Established in 2011, our focus is specifically on agricultural properties, specializing in primarily cash crop, dairy, poultry & hog. We work collectively on our listings to ensure our sellers have maximum exposure and the highest level of service available. Each team member brings their own skillsets and farming background, unique agricultural connections, and access to certain buyers. We offer a far better service as a collective than we could on our own. Having full time staff dedicated to only our clients ensure every T is crossed and all I's are dotted.

OUR COMMITMENT

FarmOntario is committed to achieving the best results possible.

We are dedicated to our client and business relationships, and take pride in ensuring we provide the absolute best service in the industry, bar none.

We take time to deliver a professional, ethical, confidential, and transparent approach.

We know that if we bring a level of service that exceeds expectations, then we will be connected with our clients for life.
